

At this holiday season we have a present for our biggest Merco customers

*Stick it to Us...
ah,
Stick With Us[®]*

For sure 2007 was our best year yet. Many of you sensed early in January that we weren't screwing around: we're just too easy and never say no. We not only want to thank you for making us bend over this year, we want you to know we'll be coming back for more next year.

At Merco there are no VPs or bean counters here telling us not to do the deal. Those of you perceptive enough to catch on took advantage of some incredible deals this year. You earned your present.

For the rest of you, we are giving you advanced notice. We expect 2008 to make 2007 look absolutely virginal. We'll do our best so that in the end, so to speak, you won't want to get your tape from anybody else.

So call with your requirements and let us put your present suppliers to shame. Give us a chance to show you just how cheap a date we can be, and how much extra profit we can help you generate. Make us your *only* source for all your tape needs. Next holiday season, we'll give out cigarettes..
